Minutes

- **Approval of Minutes January 26, 2011**
  
  Minutes approved by consensus.

- **Facilities Planning (Maintenance) Subcommittee Report**
  *(Order of agenda adjusted per approval by consensus)*

  - **Cunningham 1 Parking Needs**
    
    Mark Showers and Campus Police checked out the parking spots at Cunn 1 Parking lot outside of the DeRicco Student Services building to see if more ADA and/or 30 Minute parking spaces could be created. Currently there are 25 ADA parking spaces and 2 “30-Minute” spaces. After discussion, it was suggested to convert 2 regular spaces into additional ADA parking and to convert 8 regular spaces to 30-Minute spaces for the hours of 8 AM – 5 PM. Signage will be created and spots will be marked clearly for the 30-Minute spots. This item will be revisited Fall semester to review whether these spaces have alleviated some of the traffic and parking problems in Cunn 1 parking lot.

  - **CDC Parking Circle**
    
    Directional signage has been ordered for the CDC circle

- **Old Business**

  - **Management Senate Space**
    
    Item to be revisited after further information gathered by the Facilities Planning and Management Office and Instruction.

  - **Delta Pride Space**
    
    Mr. Brian Wick, President of Delta Pride presented a proposal to request space on campus to house the Delta Pride club. Currently the club has close to 30 active members and more than 100 who show interest in the club. The request is for a Pride Center
where the LGBT (Lesbian, Gay, Bisexual and Transgender) students and their allies would be able to address issues that face the club. The center would include a place of safety, support, and resources such as helpful information on LGBT issues, sexuality and LGBT culture.

The specifics for the requested space are as follows: Room for 15 – 20 people, book cases, one or two desks, seating, phone line, and a computer.

Mr. Julius Watters, Representative for Region V of the Student Senate for California Community Colleges (SSCCC), offered that at the General Assembly, Resolution 7.1 was unanimously passed. This resolution states that community colleges will need to provide the following: 1) a club/organization for LGBT students; 2) a “center”, if possible, for LGBT students to meet, and; 3) possible peer or staff counseling. Mr. Watters encouraged the Facilities Planning Committee to become one of the first campuses in the state to offer a Center to LGBT students.

Ms. Katy Isbell, Delta Pride member, stated that there are few resources in Stockton and this center would offer support for college and the community by setting precedence.

Ms. Baker reminded those in attendance that space is very limited and that instructional space is priority. She then encouraged Delta Pride to consider a shared space with another group but assured Delta Pride that staff would search for a space that did not impact instruction.

The club was agreeable to a shared space, such as a Diversity Center, so long as the safety of Delta Pride was a consideration in the arrangement.

Committee suggestions for space included Shima 101 which is ASBG’s Boardroom, the recently vacated Budd 207, or a portable building.

In regards to the portable building, Ms. Baker directed a comment to Mr. Mark Mekjavich, Interim VP of Student Services that the State does not fund student centers. ASBG currently has space that is taking away from instruction area and this is not the norm. Mr. Watters questioned whether it was possible to fund a student center over time with Flea Market funds. Mr. Mekjavich was not certain enough funds could be generated from this idea.

In closing, Mr. Wick stated that Community colleges typically don’t have a Diversity Center and it saddened him that it was not a priority.

The committee agreed by consensus that it was preferred to find space for a Diversity Center. Ms. Baker will have staff proceed to attempt to locate space for a Diversity Center.

Shima II Parking Lot: A parking barricade has been placed at the west entrance to the Shima II Parking Lot to help to slow traffic in the lot. The barricades are not visible until you are turning into the lot and Mr. Jeff Hislop is concerned about the safety of this issue. He will contact campus police to reevaluate the barricade.
