This addendum consists of the following:

After further evaluation by the District, the District acknowledges the possibility that a potential Respondent might become aware of this solicitation after the last Pre-Proposal Meeting on March 12, 2015. Therefore, in order to accommodate this possibility, the District has elected to remove the requirement that Respondents must attend a Mandatory Pre-Proposal Meeting as described within Article 1 and 2 of the RFP/Q. While attendance at the last Pre-Proposal Meeting on March 12, 2015 is highly recommended for those wishing to submit a Proposal, attendance at that meeting (or the first meeting) is no longer a requirement to submitting a Proposal. Therefore, as a result of this Addendum, the District will accept and consider Proposals by Respondents who did not attend the Pre-Proposal Meeting(s).
