Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities, discretely presented component unit and fiduciary activities of San Joaquin Delta Community College District, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise San Joaquin Delta Community College District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. The financial statements of Delta College Foundation were not audited in accordance with *Government Auditing Standards*.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities, discretely presented component unit and fiduciary activities, of San Joaquin Delta Community College District, as of June 30, 2019, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

(Continued)

Emphasis of Matter

As discussed in Note 1 to the financial statements, the discretely presented component unit has adopted ASU 2016-14 - *Not-For-Profit Entities (Topic 958): Presentation of Financial Statements of Not-For-Profit Entities*. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the *Management's Discussion and Analysis* on pages 4 to 6 and the Schedule of Changes in the District's Net Other Postemployment Benefits (OPEB) Funding Progress, the Schedule of the District's Proportionate Share of the Net Pension Liability, and the Schedule of the District's Contributions on pages 44 to 48 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise San Joaquin Delta Community College District's basic financial statements. The accompanying schedule of expenditure of federal awards as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* and other supplementary information listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The schedule of expenditure of federal awards and other supplementary information as listed in the table of contents are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. The schedule of expenditure of federal awards and other supplementary information as listed in the table of contents have been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditure of federal awards and other supplementary information as listed in the table of contents are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated March 6, 2020 on our consideration of San Joaquin Delta Community College District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering San Joaquin Delta Community College District's internal control over financial reporting and compliance.

San Joaquin Delta Community College District
Management's Discussion and Analysis
Fiscal Year Ending June 30, 2019

This section of the San Joaquin Delta Community College District's (the "District") annual financial report presents discussion and analysis of the District's financial performance during the fiscal year ended June 30, 2019. This is prepared in compliance with reporting standards required for public colleges and universities. Responsibility for the completeness and accuracy of this information rests with the District's management.

In June 1999, the Governmental Accounting Standards Board (GASB) issued Statement No. 34, Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments, which established a new reporting format for annual financial statements of government entities. In November 1999, GASB issued Statement No. 35, Basic Financial Statements and Management's Discussion and Analysis for Public Colleges and Universities, which applies these reporting standards to public colleges and universities such as San Joaquin Delta Community College District. The California Community Colleges Chancellor's Office has recommended that all State and community colleges follow the Business Type Activity (BTA) model for financial statement reporting purposes.

USING THIS REPORT

As required by Generally Accepted Accounting Principles (GAAP), the annual report consists of three basic financial statements that provide information on the District's activities as whole: The Statement of Net Position, the Statement of Revenues, Expenses, and Change in Net Position, and the Statement of Cash Flows.

The focus of the Statement of Net Position is to present data contained in the balance sheet, in a consolidated format, for the District. This statement combines and consolidates current financial resources (net short term spendable resources) with capital assets against long term obligations. The Statement of Revenues, Expenses, and Change in Net Position focuses on the costs of District operational activities (which are supported mainly by the SB361 Funding described below). This approach is intended to summarize and simplify the user's analysis of the cost of various services to students and to the public. The Statement of Cash Flows provides an analysis of the sources and uses of cash within the operations of the District. The financial statements also include notes that provide further detail and explanation of select data. The statements are followed by a section of required supplementary information that further supports the financial statements.

The following discussion and analysis provides an overview of the District's financial activity.

FINANCIAL HIGHLIGHTS

- The District's primary funding source is from the State of California, pursuant to the funding provisions of SB 361, as incorporated in the interim regulations of Title 5 of the California Code of Regulations, Sections 58770 and provisions of Item 6870-101-0001 of the Budget Act of 2006. SB 361 funding is comprised of state apportionment, local property taxes, and student enrollment fees. The primary basis of this apportionment is the calculation of Full Time Equivalent Students (FTES). The actual credit FTES were 13,651 and non-credit were 148 for a total FTES of 13,799 as reported on the annual attendance report.
- The Student-Centered Funding Formula benefited Delta College by increasing revenue of approximately \$1.9 vs. Adopted budget, though overall revenue declined by approximately \$2.9M vs 2017-18 actuals. This decline is driven by fewer FTES.
- The District has a Net OPEB (Other Post-Employment Benefits) liability of \$85.9M and a Net Pension liability (STRS/PRS) of \$95.5M.
- The District maintained reserve levels and posted an increase over prior year, and ended with an unrestricted general fund balance of \$15.8 million. The California Community Colleges Chancellor's Office suggests a minimum reserve level of five percent of expenditures be set aside for economic uncertainties. The District's Board policy maintains this suggested level, but strives to improve reserve level past the five percent threshold whenever possible, especially in these times of funding uncertainty. The 2018-19 fund balance was 9% of total expenditures (based on \$178.4 million of operating expenses).

- The majority of expenditures, across all funds of the District, are salaries and benefits of academic, classified, and administrative employees. The unrestricted general fund costs increased in the 2018-19 fiscal year, driven by step/column increases and increases in pension and health benefit costs.
- The District provides student financial aid to qualifying students of the District. During the fiscal year, approximately \$22.9 million in direct grants were provided to students with total federal aid at \$28.5 million. Additional student support in the form of fee waivers, discounts, childcare, books and supplies, transportation and cash grants were also provided.
- Measure L General Obligation bond program completed its fifteenth year with cumulative capital expenditures of \$258.8 million. Progress was made on a number of projects during the 2018-19 fiscal year with several ongoing projects which include Campus Wireless, Holt/Budd Shop Renovation project, and Manteca Farm Improvements.

2019-20 FACTORS AFFECTING THE FUTURE OF SAN JOAQUIN DELTA COMMUNITY COLLEGE DISTRICT

The District's 2019-20 unrestricted general fund budget was based upon the following assumptions when it was adopted in September 2019.

- The 2019-20 revenue build is based on the new Student-Centered Funding Formula for California Community Colleges proposed by the Governor. The funding formula is based on the following: 70% Base Allocation (FTES), 20% Supplemental Allocation (Equity) and 10% Student Success Allocation (Student Success). A 3-year average was used to determine our FTES (14,076).
- With the implementation of the Student-Centered Funding Formula, the District saw a gain in revenue of approximately 2.6M.
- The District is building its budget based on the P-2 FTES report of 14,386 and holding it flat for the 3-year period. The District will reevaluate as more information in regards to the Student-Centered Formula becomes available.
- The adopted budget reflects an increase in expenditures of over \$3.4M over 2018-19 actuals. This increase captures rising costs related to PERS/STRS, health care premiums, salary and step and ladder increases as well as funding to support Program Review, ERP, Maintenance and Facilities Contracts, etc.
- All categorical and auxiliary programs are expected to be self-supporting, aside from required General Fund match.
- The District will maintain a prudent reserve of at least 10%.

The budget reflects over \$3 million of new one-time funding budgeted mostly in the Capital Fund along with other funds to support one-time projects consistent with our budget guiding principles. The sources of the new one-time funding are from state scheduled maintenance, Prop 39 energy, redevelopment agency residual funds, parking and on-time transfers from the unrestricted general fund. The District has tremendous unmet needs in the facilities, maintenance, campus improvements, ADA accessibility and technology areas. These funds will allow substantial strategic reinvestment to enhance the student and staff experience. The hope for these changes will translate into increased enrollment and retention.

The District remains cautious in planning and its ability to generate the FTES that are required to meet funded target. In light of the transition from an FTES based funding model to a 3-prong funding model, our focus must not only be FTES, but also to adjust to become more outcome oriented. The long-term planning approach will protect core service until there is confidence that the District can experience growth in FTES as well as increase outcomes. In the interim, the District is committed to its' mission and continuing to provide high-quality education to students.

SAN JOAQUIN DELTA COMMUNITY COLLEGE DISTRICT
NOTES TO FINANCIAL STATEMENTS
June 30, 2019

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity: San Joaquin Delta Community College District (the "District") is a political subdivision of the State of California and provides educational services to the local residents of the surrounding area. While the District is a political subdivision of the State, it is not a component unit of the State in accordance with the provisions of Governmental Accounting Standards Board (GASB) Codification Section (Cod. Sec) 2100.101. The District is classified as a state instrumentality under Internal Revenue Code Section 115.

The decision to include potential component units in the reporting entity was made by applying the criteria set forth in accounting principles generally accepted in the United States of America. The three criteria for requiring a legally separate, tax-exempt organization to be presented as a component unit are the "direct benefit" criterion, the "entitlement/ability to access" criterion, and the "significance" criterion. The District identified Delta College Foundation (the "Foundation") as its potential component unit.

The Foundation is a nonprofit, tax-exempt organization dedicated to providing financial benefits generated from fundraising efforts and investments earnings to the District. The funds contributed by the Foundation to the District are significant to the District's financial statements. The District applied the criteria for identifying component units in accordance with GASB Cod. Sec. 2100 and therefore, the District has classified the Foundation as a component unit that will be discretely presented in the District's financial statements. Copies of the Foundation's annual financial report may be obtained from the District Office, 5151 Pacific Avenue, Stockton, California, 95207.

Basis of Accounting: For financial reporting purposes, the District is considered a special-purpose government engaged in business-type activities. Under this model, the District's financial statements provide a comprehensive entity-wide perspective at the District's financial position and activities. Accordingly, the District's financial statements have been presented using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis, revenues are recognized when earned and expenses are recorded when the obligation has been incurred. All significant intra-agency transactions have been eliminated.

Fiduciary funds for which the District acts only as an agent or trustee are not included in the business-type activities of the District. These funds are reported in the Statement of Fiduciary Net Position and the Statement of Change in Fiduciary Net Position at the fund financial statement level. The District's Student Trust Funds include resources held in trust from contributions from various organizations or groups. Amounts held are restricted based on agreements with the various organizations or groups.

The Foundation's financial statements are prepared on the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recognized when they are incurred in accordance with accounting principles generally accepted in the United States of America. Classification of contributions is dependent upon whether the contribution is with donor restriction or without donor restriction. Net assets are classified on the Statement of Financial Position as net assets with donor restriction or net assets without donor restriction based on the absence or existence of donor-imposed restrictions. The Foundation's statements were prepared in accordance with the pronouncements of the Financial Accounting Standards Board. As such, certain revenue recognition criteria and presentation features are different from GASB revenue recognition criteria and presentation features. No modifications have been made to the Foundations' financial information in the District's report for these differences.

The District records revenues when earned and expenses when a liability is incurred regardless of the timing of the related cash flow. The budgetary and financial accounts of the District are recorded and maintained in accordance with the Chancellor's Office's *Budget and Accounting Manual*.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Cash equivalents: For the purposes of the financial statements, cash equivalents are defined as financial instruments with an original maturity of three months or less. Funds invested in the San Joaquin County Treasury are considered cash equivalents.

Restricted Cash: Cash that is externally restricted to make debt service payments, maintain sinking or reserve funds, or to purchase or construct capital or other noncurrent assets, is classified as a noncurrent asset in the Statement of Net Position.

Fair Value of Investments: The Foundation's investments are valued at fair value based upon quoted market prices, when available, or estimates of fair value in the Statement of Financial Position and unrealized and realized gains and losses are included in the Statement of Activities.

Receivables: Receivables consist of tuition and fee charges to students and auxiliary enterprise services provided to students, faculty and staff. Receivables also include amounts due from the federal government, state and local governments, or private sources, in connection with reimbursement of allowable expenditures made pursuant to the District's grants and contracts. The District provides for an allowance for uncollectible accounts as an estimation of amounts that may not be received. The allowance is based upon management's estimates and analysis. There was no allowance recorded for the year ended June 30, 2019.

Inventory: Inventory consists of stores supplies, cafeteria food, textbooks and educational supplies. Except for bookstore inventories, which are valued using the retail method, inventories are stated at the lower of cost (first-in, first-out method) or market.

Capital Assets: Capital assets are recorded at cost at the date of acquisition or, if donated, at acquisition value for the contributed asset. For equipment, the District's capitalization policy includes all items with a unit cost of \$5,000 or more, and estimated useful life of greater than one year. Renovations to buildings, infrastructure, and land improvements that significantly increase the value or extend the useful life of the structure are capitalized. Routine repairs and maintenance are charged to operating expense in the year in which the expense was incurred.

Depreciation is computed using the straight-line method over the estimated useful lives of the assets ranging from 3 – 50 years depending on asset type.

The District capitalizes interest paid on obligations related to the acquisition, construction or rehabilitation of District capital assets. Interest capitalized and interest expense totaled \$1,551,280 and \$5,692,297, respectively, during the year ended June 30, 2019.

Due to Other Funds: Transactions between funds of the District are recorded as interfund transfers. The unpaid balances at year end, as a result of such transactions, are shown as due to and due from other funds.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Deferred Outflows/Inflows of Resources: In addition to assets, the Statement of Net Position includes a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s), and as such will not be recognized as an outflow of resources (expense/expenditures) until then. A deferred loss on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter life of the refunded or refunding debt. Also, the District has recognized a deferred outflow of resources related to the recognition of the net pension and net OPEB liability are reported in the Statement of Net Position.

In addition to liabilities, the Statement of Net Position reports a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and as such, will not be recognized as an inflow of resources (revenue) until that time. The District has recognized a deferred inflow of resources related to the recognition of the net pension liability reported which is in the Statement of Net Position.

Pensions: For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the State Teachers' Retirement Plan (STRP) and Public Employers Retirement Fund B (PERF B) and additions to/deductions from STRP's and PERF B's fiduciary net position have been determined on the same basis as they are reported by STRP and PERF B. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Certain investments are reported at fair value. The following is a summary of pension amounts in aggregate:

| | <u>STRP</u> | <u>PERF B</u> | <u>Total</u> |
|--------------------------------|----------------------|----------------------|----------------------|
| Deferred outflows of resources | <u>\$ 13,394,234</u> | <u>\$ 12,821,453</u> | <u>\$ 26,215,687</u> |
| Deferred inflows of resources | <u>\$ 10,590,000</u> | <u>\$ 1,498,000</u> | <u>\$ 12,088,000</u> |
| Net pension liability | <u>\$ 48,680,000</u> | <u>\$ 46,868,000</u> | <u>\$ 95,548,000</u> |
| Pension expense | <u>\$ 9,972,190</u> | <u>\$ 9,777,352</u> | <u>\$ 19,749,542</u> |

Compensated Absences: Compensated absence costs are accrued when earned by employees. Accumulated unpaid employee vacation benefits are recognized at year end as liabilities of the District.

Accumulated Sick Leave: Sick leave benefits are not recognized as liabilities of the District. The District's policy is to record sick leave as an operating expenditure or expense in the period taken since such benefits do not vest nor is payment probable; however, unused sick leave is added to the creditable service period for calculation of retirement benefits for certain STRP and PERF B employees, when the employee retires.

Unearned Revenue: Revenues from Federal, State and local special projects and programs are recognized when qualified expenditures have been incurred. Tuition, fees and other support received but not earned are recorded as unearned revenue until earned.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Net Position: The District's net position is classified as follows:

Net investment in capital assets: This represents the District's total investment in capital assets, net of associated outstanding debt obligations related to those capital assets. To the extent debt has been incurred but not yet expended for capital assets, such amounts are not included as a component of net investment in capital assets.

Restricted net position: Restricted expendable net position includes resources in which the District is legally or contractually obligated to spend in accordance with restrictions imposed by external third parties. Nonexpendable restricted net position consists of endowment and similar type funds in which donors or other outside sources have stipulated, as a condition of the gift instrument, that the principal is to be maintained inviolate and in perpetuity, and invested for the purpose of producing present and future income, which may either be expended or added to the principal. At June 30, 2019 there is no balance of nonexpendable restricted net position.

Unrestricted net position: Unrestricted net position represents resources derived from student tuition and fees, State apportionments, and sales and services of educational departments and auxiliary enterprises. These resources are used for transactions relating to the educational and general operations of the District, and may be used at the discretion of the governing board to meet current expenses for any purpose.

When an expense is incurred that can be paid using either restricted or unrestricted resources, the District typically first applies the expense toward restricted resources, then to unrestricted resources.

The Foundation's net assets are classified as follows:

Without donor restriction: Unrestricted net assets consist of all resources of the Foundation, which have not been specifically restricted by a donor.

With donor restriction - Net assets with donor restriction consist of cash and other assets received with donor stipulations restricted for the expenses incurred by student and other various groups of the District. When a stipulated time restriction ends, or purpose restriction is accomplished, net assets with donor restriction are reclassified to net assets without donor restriction and reported in the Statement of Activities as net assets released from restrictions

Risk Management: As more fully described in Note 8, the District is partially self-insured with regard to liability and workers' compensation claims. The amount of the outstanding liability at June 30, 2019 for liability and workers' compensation claims includes estimates of future claim payments for known cases as well as provisions for incurred but not reported claims and adverse development on known cases which occurred through that date. Outstanding claims which are expected to become due and payable within the subsequent fiscal year are reflected as an accounts and claims payable liability and the balance of the estimated liability is reflected as a current liability.

State Apportionments: Certain current year apportionments from the state are based on various financial and statistical information of the previous year. Prior year corrections due to a recalculation will be recorded in the year completed by the state. When known and measurable, these recalculations and corrections are accrued in the year in which the FTES are generated.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Classification of Revenue and Expenses: The District has classified its revenues and expenses as either operating or nonoperating revenues and expenses. Certain significant revenue streams relied upon for operations are recorded as nonoperating revenues, as defined by GASB Cod. Sec. Co5.101 including State appropriations, local property taxes, and investment income. Nearly all the District's expenses are from exchange transactions. Revenues and expenses are classified according to the following criteria:

Operating revenues and expenses: Operating revenues and expenses include activities that have the characteristics of exchange transactions, such as (1) student tuition and fees, net of scholarship discounts and allowances, (2) sales and services of auxiliary enterprises, and (3) most Federal, State and local grants and contracts and Federal appropriations. All expenses are considered operating expenses except for interest expense on capital related debt and the cancellation of construction in progress previously capitalized.

Nonoperating revenues and expenses: Nonoperating revenues include activities that have the characteristics of nonexchange transactions, such as Pell grants, gifts and contributions, and other revenue sources described in GASB Cod. Sec. Co5.101, such as State appropriations and investment income. Interest expense on capital related debt and the cancellation of construction in progress previously capitalized are the only nonoperating expenses.

Contributions: Contributions are recognized as revenues in the period received. Unconditional promises to give (pledges) are recognized as revenue when the commitment is communicated to the Foundation. Conditional promises to give are not recognized until they become unconditional, that is, when the conditions on which they depend are substantially met. Contributions of assets other than cash are recorded at their estimated fair value at the date of donation. Contributions are considered available for unrestricted use unless specifically restricted by the donor. Event revenues received in advance are unearned and recognized in the period as the events occur.

Scholarship Discounts and Allowances: Student tuition and fee revenue are reported net of scholarship discounts and allowances in the statement of revenues, expenses and change in net position. Scholarship discounts and allowances represent the difference between stated charges for goods and services provided by the District and the amount that is paid by students and/or third parties making payments on the students' behalf. Certain governmental grants are recorded as operating revenues in the District's financial statements. To the extent that revenues from such programs are used to satisfy tuition and fees and other student charges, the District has recorded a scholarship discount and allowance.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Accordingly, actual results may differ from those estimates.

New Accounting Pronouncement: In August 2016, FASB issued ASU No. 2016-14, *Presentation of Financial Statements of Not-for-Profit Entities*. The update is focused at improvement in presentation of financial statements of not for profit organizations that will help bring clarity and increase usefulness of the information provided. The update is effective for annual financial statements issued for fiscal years beginning after December 15, 2017, and for interim periods within fiscal years beginning after December 15, 2018. The Foundation adopted this standard for the year ended June 30, 2019 and has adjusted the presentation of these financial statements accordingly. The implementation of this ASU did not have a material effect on amounts previously presented.

| Total investments | <u>\$ 6,442,694</u> | |

Cash in County Treasury: In accordance with Education Code Section 41001, the District maintains substantially all of its cash in the interest bearing San Joaquin County Treasurer's Investment Fund. The District is considered to be an involuntary participant in an external investment pool. The fair value of the District's investment in the pool is reported in the financial statements at amounts based upon the District's pro-rata share of the fair value provided by the County Treasurer for the entire portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by the County Treasurer, which is recorded on the amortized cost basis.

Cash with Fiscal Agent: Cash with Fiscal Agent of \$58,906,935 is held by a trustee for the improvement of campus facilities and debt service. Funds are held in the County Treasury. The balance available for withdrawal is based on the accounting records maintained by the County Treasurer, which is recorded on the amortized cost basis.

NOTE 2 - CASH, CASH EQUIVALENTS, AND INVESTMENTS (Continued)

Custodial Credit Risk: The California Government Code requires California banks and savings and loan associations to secure the District's deposits by pledging government securities as collateral. The market value of pledged securities must equal 110 percent of an agency's deposits. California law also allows financial institutions to secure an agency's deposits by pledging first trust deed mortgage notes having a value of 150 percent of an agency's total deposits and collateral is considered to be held in the name of the District. All cash held by financial institutions is entirely insured or collateralized.

The District limits custodial credit risk by ensuring uninsured balances are collateralized by the respective financial institution. Cash balances held in banks are insured up to \$250,000 by the Federal Deposit Insurance Corporation (FDIC) and are collateralized by the respective financial institution. At June 30, 2019, the carrying amount of the District and Fiduciary cash held in banks was \$28,135,176, and the bank balances were \$27,487,799 of which \$515,000 was insured by the FDIC.

The Foundation maintains substantially all of its cash in banks and are insured up to \$250,000 by the FDIC. At June 30, 2019, the carrying amount of the Foundation's cash in banks was \$713,069 and the bank balance of the Foundation's cash in banks was \$713,069, of which \$324,379 was insured by the FDIC.

Credit Risk: Under provision of the District and Foundation's policies and in accordance with Sections 53601 and 53602 of the California Government code, the District and Foundation may invest in the following types of investments:

- Local agency bonds, notes or warrants within the state
- Securities of the U.S. Government or its agencies
- Certificates of Deposit with commercial banks
- Commercial paper
- Repurchase Agreements

Interest Rate Risk: The District and Foundation's investment policies do not limit cash and investment maturities as a means of managing their exposure to fair value losses arising from increasing interest rates. At June 30, 2019, the District and Foundation had no significant interest rate risk related to cash and investments held.

Concentration of Credit Risk: The District and Foundation do not place limits on the amount they may invest in any one issuer. At June 30, 2019, the District and Foundation had no concentration of credit risk.

Foundation Investments: The following presents information about the Foundation's assets and liabilities measured at fair value on a recurring basis as of June 30, 2019, and indicates the fair value hierarchy of the valuation techniques utilized by the Foundation to determine such fair value based on the hierarchy:

Level 1 - Quoted market prices for identical instruments traded in active exchange markets.

Level 2 - Significant other observable inputs such as quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable or can be corroborated by observable market data.

Level 3 - Significant unobservable inputs that reflect a reporting entity's own assumptions about the methods that market participants would use in pricing an asset or liability.

SAN JOAQUIN DELTA COMMUNITY COLLEGE DISTRICT
NOTES TO FINANCIAL STATEMENTS
June 30, 2019

NOTE 2 - CASH, CASH EQUIVALENTS, AND INVESTMENTS (Continued)

The Foundation is required or permitted to record the following assets at fair value on a recurring basis:

| <u>Description</u> | <u>Fair Value</u> | <u>Level 1</u> | <u>Level 2</u> | <u>Level 3</u> |
|---|---------------------|---------------------|---------------------|----------------|
| Equity securities | \$ 5,385,468 | \$ 5,385,468 | \$ - | \$ - |
| U.S. Government obligations | 625,666 | - | 625,666 | - |
| Municipal securities | 203,850 | - | 203,850 | - |
| Corporate debt securities | 227,710 | - | 227,710 | - |
| Investments under split interest agreements | <u>41,050</u> | <u>-</u> | <u>41,050</u> | <u>-</u> |
| Total | <u>\$ 6,483,744</u> | <u>\$ 5,385,468</u> | <u>\$ 1,098,276</u> | <u>\$ -</u> |

There were no changes in the valuation techniques used during the year ended June 30, 2019.

Fair values for corporate equity securities are based on quoted market prices in active markets for identical assets that the Foundation has the ability to access.

Fixed-maturity securities include corporate debt securities, U.S. government securities, and municipal securities. The fair value of fixed maturity securities and investments related to split interest agreements are obtained from similar instruments in inactive markets.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Foundation believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Foundation had no recurring liabilities at June 30, 2019, which were required to be disclosed using the fair value hierarchy.

The Foundation had no non recurring assets or liabilities at June 30, 2019, which were required to be disclosed using the fair value hierarchy.

The Foundation's split-interest agreements consist of trusts for which the Foundation serves as both trustee and beneficiary. Assets invested under these trusts and payments made to beneficiaries are based on the terms of the trust agreements. As of June 30, 2019, assets held in trust under split-interest agreements totaled \$41,050 and the associated liability to beneficiaries totaled \$4,200.

NOTE 7 - PROPERTY TAXES

All property taxes are levied and collected by the Tax Assessors of the following Counties: San Joaquin, Alameda, Sacramento, Calaveras, and Solano, and are paid upon collection to the various taxing entities including the District. Secured taxes are levied on July 1 and are due in two installments on November 1 and February 1, and become delinquent on December 10 and April 10, respectively. The lien date for secured and unsecured property taxes is March 1 of the preceding fiscal year.

Property taxes collected for the purpose of repayment of voter approved General Obligation Bond debt are restricted in the District's Bond Interest and Redemption Fund.

NOTE 8 - RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District is self-insured for its general liability and auto liability. The District has chosen to establish a risk financing internal service fund where assets are set aside for claim settlements associated with the above risks of loss up to certain limits. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

The District is responsible for claims less than \$100,000 for property and \$150,000 for liability claims, with excess coverage is provided by the Statewide Association of Community Colleges (SWACC). SWACC is a joint powers authority (JPA) created to provide services and other items necessary and appropriate for the establishment, operation, and maintenance of a self-funded excess liability fund for public educational agencies which are parties thereto. In addition, the District has excess coverage beyond SWACC through the Schools Association of Excess Risk (SAFER) which provides up to \$250,000,000 for property coverage and up to \$50,000,000 for liability claims. Should excess liability claims exceed amounts covered by SWACC and SAFER, the District may be required to provide additional funding. Amounts of additional funding cannot be determined although District management does not expect such amounts, if any, to be material in relation to the financial statements.

NOTE 8 - RISK MANAGEMENT (Continued)

Prior to July 1, 2014, the District was self-insured for workers' compensation losses. During the time, the District was responsible for claims up to \$500,000 and greater than \$25,000,000. Claims in excess of the \$500,000 self-insurance limit were funded through Schools Alliance for Workers' Compensation Excess (SAWCX II) until June 30, 2014. On July 1, 2014, the District joined the Protected Insurance Program for Schools (PIPS), a JPA which provides reinsurance coverage for workers compensation claims up to \$155,000,000, with no member deductible. The District contracted with third party administrator, Keenan & Associates, to manage workers' compensation claims.

The claims liability activity for the years ended June 30, 2019 and 2018 is as follows:

| | <u>2019</u> | <u>2018</u> |

NOTE 9 - NET PENSION LIABILITY – STATE TEACHERS' RETIREMENT PLAN

General Information about the State Teachers' Retirement Plan

Plan Description: Teaching-certified employees of the District are provided with pensions through the State Teachers' Retirement Plan (STRP) – a cost-sharing multiple-employer defined benefit pension plan administered by the California State Teachers' Retirement System (CalSTRS). The Teachers' Retirement Law (California Education Code Section 22000 et seq.), as enacted and amended by the California Legislature, established this plan and CalSTRS as the administrator. The benefit terms of the plans may be amended through legislation. CalSTRS issues a publicly available financial report that can be obtained at <http://www.calstrs.com/comprehensive-annual-financial-report>.

Benefits Provided: The STRP Defined Benefit Program has two benefit formulas:

- CalSTRS 2% at 60: Members first hired on or before December 31, 2012, to perform service that could be creditable to CalSTRS.
- CalSTRS 2% at 62: Members first hired on or after January 1, 2013, to perform service that could be creditable to CalSTRS.

The Defined Benefit (DB) Program provides retirement benefits based on members' final compensation, age and years of service credit. In addition, the retirement program provides benefits to members upon disability and to survivors/beneficiaries upon the death of eligible members. There are several differences between the two benefit formulas which are noted below.

NOTE 9 - NET PENSION LIABILITY – STATE TEACHERS' RETIREMENT PLAN (Continued)

CalSTRS 2% at 60

CalSTRS 2% at 60 members are eligible for normal retirement at age 60, with a minimum of five years of credited service. The normal retirement benefit is equal to 2.0 percent of final compensation for each year of credited service. Early retirement options are available at age 55 with five years of credited service or as early as age 50 with 30 years of credited service. The age factor for retirements after age 60 increases with each quarter year of age to 2.4 percent at age 63 or older. Members who have 30 years or more of credited service receive an additional increase of up to 0.2 percent to the age factor, known as the career factor. The maximum benefit with the career factor is 2.4 percent of final compensation.

CalSTRS calculates retirement benefits based on a one-year final compensation for members who retired on or after January 1, 2001, with 25 or more years of credited service, or for classroom teachers with less than 25 years of credited service if the employer elected to pay the additional benefit cost prior to January 1, 2014. One-year final compensation means a member's highest average annual compensation earnable for 12 consecutive months calculated by taking the creditable compensation that a member could earn in a school year while employed on a full time basis, for a position in which the person worked. For members with less than 25 years of credited service, final compensation is the highest average annual compensation earnable for any three consecutive years of credited service.

CalSTRS 2% at 62

CalSTRS 2% at 62 members are eligible for normal retirement at age 62, with a minimum of five years of credited service. The normal retirement benefit is equal to 2.0 percent of final compensation for each year of credited service. An early retirement option is available at age 55. The age factor for retirement after age 62 increases with each quarter year of age to 2.4 percent at age 65 or older.

All CalSTRS 2% at 62 members have their final compensation based on their highest average annual compensation earnable for three consecutive years of credited service.

Contributions: Required member, employer and state contribution rates are set by the California Legislature and Governor and detailed in Teachers' Retirement Law. Contribution rates are expressed as a level percentage of payroll using the entry age normal actuarial cost method.

A summary of statutory contribution rates and other sources of contributions to the Defined Benefit Program are as follows:

Members – Under CalSTRS 2% at 60, the member contribution rate was 10.25 percent of applicable member earnings for fiscal year 2018-19. Under CalSTRS 2% at 62, members contribute 50 percent of the normal cost of their retirement plan, which resulted in a contribution rate of 10.205 percent of applicable member earnings for fiscal year 2018-19.

In general, member contributions cannot increase unless members are provided with some type of "comparable advantage" in exchange for such increases. Under previous law, the Legislature could reduce or eliminate the 2 percent annual increase to retirement benefits. As a result of AB 1469, effective July 1, 2014, the Legislature cannot reduce the 2 percent annual benefit adjustment for members who retire on or after January 1, 2014, and in exchange for this "comparable advantage," the member contribution rates have been increased by an amount that covers a portion of the cost of the 2 percent annual benefit adjustment.

Employers – 16.28 percent of applicable member earnings.

Pursuant to AB 1469, employer contributions will increase from a prior rate of 8.25 percent to a total of 19.1 percent of applicable member earnings phased in over seven years starting in 2014. The new legislation also gives the CalSTRS board limited authority to adjust employer contribution rates from July 1, 2021 through June 2046 in order to eliminate the remaining unfunded actuarial obligation related to service credited to members prior to July 1, 2014. The CalSTRS board cannot adjust the rate by more than 1 percent in a fiscal year, and the total contribution rate in addition to the 8.25 percent cannot exceed 12 percent.

The CalSTRS employer contribution rate increases effective for fiscal year 2018-19 through fiscal year 2045-46 are summarized in the table below:

| <u>Effective Date</u> | <u>Prior Rate</u> | <u>Increase</u> | <u>Total</u> |
|-----------------------|-------------------|--|--------------|
| July 01, 2018 | 8.25% | 8.03% | 16.28% |
| July 01, 2019 | 8.25% | 9.88% | 18.13% |
| July 01, 2020 | 8.25% | 10.85% | 19.10% |

| June 30, 2046 | 8.25% | * | * |
| July 01, 2046 | 8.25% | Increase from prior rate ceases in 2046-47 | |

*The Teachers' Retirement Board (the "board") cannot adjust the employer rate by more than 1 percent in a fiscal year, and the increase to the contribution rate above the 8.25 percent base contribution rate cannot exceed 12 percent for a maximum of 20.25 percent.

The District contributed \$5,393,234 to the plan for the fiscal year ended June 30, 2019.

State – 9.828 percent of the members' creditable earnings from the fiscal year ending in the prior calendar year for fiscal year 2018-19.

Also as a result of AB 1469, the additional state appropriation required to fully fund the benefits in effect as of 1990 by 2046 is specific in subdivision (b) of Education Code Section 22955.1. The increased contributions end as of fiscal year 2045-2046.

NOTE 9 - NET PENSION LIABILITY – STATE TEACHERS' RETIREMENT PLAN (Continued)

The state's base contribution to the Defined Benefit Program is calculated based on creditable compensation from two fiscal years prior. The state rate will increase to 5.811% on July 1, 2019, to continue paying down unfunded liabilities associated with the benefits structure that was in place in 1990 prior to certain enhancements in benefits and reductions in contributions. Additionally, the enactment of SB 90 will result in future supplemental contributions to be made by the state to pay down its portion of the unfunded actuarial obligation of the Defined Benefit Program in fiscal years 2019-20 through 2022-23. The CalSTRS state contribution rates effective for fiscal year 2018-19 are summarized in the table below:

| <u>Effective Date</u> | <u>Base Rate</u> | <u>AB 1469 Increase For 1990 Benefit Structure</u> | <u>SBMA Funding</u> ⁽¹⁾ | <u>Total State Appropriation to DB Program</u> |
|--------------------------------|------------------|--|------------------------------------|--|
| July 01, 2018 | 2.017% | 5.311% | 2.50% | 9.828% |
| July 01, 2019 | 2.017% | 5.811% ⁽²⁾ | 2.50% | 10.328% ⁽³⁾ |
| July 01, 2020 to June 30, 2046 | 2.107% | (4) | 2.50% | (4) |
| July 01, 2046 and thereafter | 2.017% | (5) | 2.50% | 4.517% ⁽⁵⁾ |

(1) This rate does not include the \$72 million reduction in accordance with Education Code Section 22954.

(2) In May 2019, the board of CalSTRS exercised its limited authority to increase the state contribution rate by 0.5 percent of the payroll effective July 1, 2019.

(3) This rate does not include the \$2.2 billion supplemental state contribution on behalf of employers pursuant to SB 90.

(4) The CalSTRS board has limited authority to adjust state contribution rates annually through June 30, 2046 in order to eliminate the remaining unfunded actuarial obligation associated with the 1990 benefit structure. The board cannot increase the rate by more than 0.50 percent in a fiscal year, and if there is no unfunded actuarial obligation, the contribution rate imposed to pay for the 1990 benefit structure would be reduced to 0 percent. Rates in effect prior to July 1, 2014, are reinstated if necessary to address any remaining 1990 unfunded actuarial obligation from July 1, 2046, and thereafter.

(5) From July 1, 2046, and thereafter, the rates in effect prior to July 1, 2014, are reinstated, if necessary, to address any remaining 1990 unfunded actuarial obligation.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2019, the District reported a liability for its proportionate share of the net pension liability that reflected a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

| | |
|---|-----------------------------|
| District's proportionate share of the net pension liability | \$ 48,680,000 |
| State's proportionate share of the net pension liability associated with the District | <u>27,872,000</u> |
| Total | <u>\$ 76,552,000</u> |

The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2017. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the contributions of all participating school districts and the State. At June 30, 2018, the District's proportion was 0.053 percent, which was a decrease of 0.008 percent from its proportion measured as of June 30, 2017.

For the year ended June 30, 2019, the District recognized pension expense of \$9,972,190 and revenue of \$6,471,655 for support provided by the State. At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| | <u>Deferred Outflows of Resources</u> | <u>Deferred Inflows of Resources</u> |
|---|---|--|
| Difference between expected and actual experience | \$ 151,000 | \$ 707,000 |
| Changes of assumptions | 7,563,000 | - |

| Contributions made subsequent to measurement date | <u>5,393,234</u> | <u>-</u> |
| Total | <u>\$ 13,394,234</u> | <u>\$ 10,590,000</u> |

\$5,393,234 reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

| | |
|------|----------------|
| 2020 | \$ 413,333 |
| 2021 | \$ (290,667) |
| 2022 | \$ (1,568,667) |
| 2023 | \$ (405,667) |
| 2024 | \$ 182,333 |
| 2025 | \$ (919,665) |

Differences between expected and actual experience, changes in assumptions and changes in proportion are amortized over a closed period equal to the average remaining service life of plan members, which is 7 years as of the June 30, 2018 measurement date. Deferred outflows and inflows related to differences between projected and actual earnings on plan investments are netted and amortized over a closed 5-year period.

NOTE 9 - NET PENSION LIABILITY – STATE TEACHERS' RETIREMENT PLAN (Continued)

Actuarial Methods and Assumptions: The total pension liability for the STRP was determined by applying update procedures to a financial reporting actuarial valuation as of June 30, 2017, and rolling forward the total pension liability to June 30, 2018. The financial reporting actuarial valuation as of June 30, 2017, used the following actuarial methods and assumptions, applied to all prior periods included in the measurement:

| | |
|-----------------------------------|---|
| Valuation Date | June 30, 2017 |
| Experience Study | July 1, 2010 through June 30, 2015 |
| Actuarial Cost Method | Entry age normal |
| Investment Rate of Return | 7.10% |
| Consumer Price Inflation | 2.75% |
| Wage Growth | 3.50% |
| Post-retirement Benefit Increases | 2.00% simple for DB Not applicable for DBS/CBB |

CalSTRS uses a generational mortality assumption, which involves the use of a base mortality table and projection scales to reflect expected annual reductions in mortality rates at each age, resulting in increases in life expectancies each year into the future. The base mortality tables are CalSTRS custom tables derived to best fit the patterns of mortality among its members. The projection scale was set equal to 110 percent of the ultimate improvement factor from the Mortality Improvement Scale (MP-2016) table, issued by the Society of Actuaries.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. The best estimate ranges were developed using capital market assumptions from CalSTRS general investment consultant as an input to the process. The actuarial investment rate of return assumption was adopted by the CalSTRS board in February 2017 in conjunction with the most recent experience study. For each future valuation, CalSTRS consulting actuary reviews the return assumption for reasonableness based on the most current capital market assumptions. Best estimates of 20-year geometric real rates of return and the assumed asset allocation for each major asset class used as input to develop the actuarial investment rate of return are summarized in the following table:

Discount Rate: The discount rate used to measure the total pension liability was 7.10 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at statutory contribution rates in accordance with the rate increase per AB 1469. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.10 percent) and assuming that contributions, benefit payments, and administrative expense occur midyear. Based on those assumptions, the STRP's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate: The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.10 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.10 percent) or 1-percentage-point higher (8.10 percent) than the current rate:

NOTE 10 - NET PENSION LIABILITY – PUBLIC EMPLOYER’S RETIREMENT FUND B

General Information about the Public Employer’s Retirement Fund B

Plan Description: The schools cost-sharing multiple-employer defined benefit pension plan Public Employer’s Retirement Fund B (PERF B) is administered by the California Public Employees’ Retirement System (CalPERS). Plan membership consists of non-teaching and non-certified employees of public schools (K-12), community college districts, offices of education, charter and private schools (elective) in the State of California.

The Plan was established to provide retirement, death and disability benefits to non-teaching and noncertified employees in schools. The benefit provisions for Plan employees are established by statute. CalPERS issues a publicly available financial report that can be obtained at:

<https://www.calpers.ca.gov/docs/forms-publications/cafr-2018.pdf>

Benefits Provided: The benefits for the defined benefit plans are based on members’ years of service, age, final compensation, and benefit formula. Benefits are provided for disability, death, and survivors of eligible members or beneficiaries. Members become fully vested in their retirement benefits earned to date after five years (10 years for State Second Tier members) of credited service.

Contributions: The benefits for the defined benefit pension plans are funded by contributions from members and employers, and earnings from investments. Member and employer contributions are a percentage of applicable member compensation. Member contribution rates are defined by law and depend on the respective employer’s benefit formulas. Employer contribution rates are determined by periodic actuarial valuations or by state statute. Actuarial valuations are based on the benefit formulas and employee groups of each employer. Employer contributions, including lump sum contributions made when agencies first join the PERF B, are credited with a market value adjustment in determining contribution rates.

The required contribution rates of most active plan members are based on a percentage of salary in excess of a base compensation amount ranging from zero dollars to \$863 monthly.

Required contribution rates for active plan members and employers as a percentage of payroll for the year ended June 30, 2019 were as follows:

Members – The member contribution rate was 6.50 or 7.00 percent of applicable member earnings for fiscal year 2018-19.

Employers – The employer contribution rate were 18.062 percent of applicable member earning.

The District contributed \$4,363,453 to the plan for the fiscal year ended June 30, 2019.

NOTE 10 - NET PENSION LIABILITY – PUBLIC EMPLOYER’S RETIREMENT FUND B (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2019, the District reported a liability of \$46,868,000 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2017. The District’s proportion of the net pension liability was based on the District’s share of contributions to the pension plan relative to the contributions of all participating school Districts. At June 30, 2018, the District’s proportion was 0.176 percent, which was a decrease of 0.008 from its proportion measured as of June 30, 2017.

For the year ended June 30, 2019, the District recognized pension expense of \$9,777,352. At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| | <u>Deferred Outflows of Resources</u> | <u>Deferred Inflows of Resources</u> |
|---|---|--|
| Difference between expected and actual experience | \$ 3,073,000 | \$ - |
| Changes of assumptions | 4,680,000 | - |
| Net differences between projected and actual earnings on investments | 385,000 | - |
| Changes in proportion and differences between District contributions and proportionate share of contributions | 320,000 | 1,498,000 |
| Contributions made subsequent to measurement date | <u>4,363,453</u> | <u>-</u> |
| Total | <u>\$ 12,821,453</u> | <u>\$ 1,498,000</u> |

\$4,363,453 reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

| | |
|------|--------------|
| 2020 | \$ 4,625,167 |
| 2021 | \$ 3,069,167 |
| 2022 | \$ (457,884) |
| 2023 | \$ (276,500) |

Differences between expected and actual experience, changes in assumptions and changes in proportion are amortized over a closed period equal to the average remaining service life of plan members, which is 4 years as of the June 30, 2018 measurement date. Deferred outflows and inflows related to differences between projected and actual earnings on plan investments are netted and amortized over a closed 5-year period.

Actuarial Methods and Assumptions: The total pension liability for the Plan was determined by applying update procedures to a financial reporting actuarial valuation as of June 30, 2017, and rolling forward the total pension liability to June 30, 2018. The financial reporting actuarial valuation as of June 30, 2017, used the following actuarial methods and assumptions, applied to all prior periods included in the measurement:

| | |
|-----------------------------------|--|
| Valuation Date | June 30, 2017 |
| Experience Study | June 30, 1997 through June 30, 2015 |
| Actuarial Cost Method | Entry age normal |

| Consumer Price Inflation | 2.50% |
| Wage Growth | Varies by entry age and service |
| Post-retirement Benefit Increases | 2.00% until Purchasing Power Protection Allowance Floor on Purchasing Power applies 2.50% thereafter |

The mortality table used was developed based on CalPERS specific data. The table includes 20 years of mortality improvements using Society of Actuaries 90% of scale MP 2016. For more details on this table, please refer to the 2017 experience study report.

All other actuarial assumptions used in the June 30, 2017 valuation were based on the results of an actuarial experience study for the period from 1997 to 2015, including updates to salary increase, mortality and retirement rates. Further details of the Experience Study can be found at CalPERS’ website.

The table below reflects long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation.

NOTE 10 - NET PENSION LIABILITY – PUBLIC EMPLOYER’S RETIREMENT FUND B (Continued)

Discount Rate: The discount rate used to measure the total pension liability was 7.15 percent. A projection of the expected benefit payments and contributions was performed to determine if assets would run out. The test revealed the assets would not run out. Therefore the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability for the Plan. The results of the crossover testing for the Plan are presented in a detailed report that can be obtained at CalPERS’ website.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected cash flows of the Plan. Such cash flows were developed assuming that both members and employers will make their required contributions on time and as scheduled in all future years. Using historical returns of all the Plan’s asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated. The expected rate of return was set by calculating the rounded single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses.

Sensitivity of the District’s Proportionate Share of the Net Pension Liability to Changes in the Discount Rate: The following presents the District’s proportionate share of the net pension liability calculated using the discount rate of 7.15 percent, as well as what the District’s proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.15 percent) or 1-percentage-point higher (8.15 percent) than the current rate:

NOTE 11 - OTHER POSTEMPLOYMENT BENEFITS (OPEB)

General Information Other Postemployment Benefits Plan (OPEB)

Plan Description: In addition to the pension benefits described in Notes 9 and 10, the District established an Other Postemployment Benefits Plan which is a single-employer defined benefit healthcare plan. The District participates in the California Employer's Retiree Benefit Trust Program (CERBT) to pre-fund OPEB liabilities. The CERBT is an agent multiple employer plan consisting of an aggregation of single-employer plans, with pooled administrative and investment functions that are administered by PERS. A copy of the aggregated CERBT annual financial report may be obtained @www.calpers.ca.gov. CERBT serves as an irrevocable trust, to ensure that funds contributed into the Trust are dedicated to service the needs of member districts, and their employees and retirees.

The CERBT fund, which is an Internal Revenue Code (IRC) Section 115 Trust, is set up for the purpose of (i) receiving employer contributions to pre-fund health and other post-employment benefits for retirees and their beneficiaries, (ii) invest contributed amounts and income therein, and (iii) disburse contributed amounts and income therein, if any, to pay for costs of administration of the fund and to pay for health care costs or other post-employment benefits in accordance with the terms of the District's OPEB plan.

Employees Covered by Benefit Terms: The following is a table of plan participants at June 30, 2019;

| | <u>Number of Participants</u> |
|--|-----------------------------------|
| Inactive Plan members, covered spouses, or beneficiaries currently receiving benefits | \$ 344 |
| Inactive employees/dependents entitled to but not yet receiving benefits | - |
| Active employees | <u>299</u> |
| | <u><u>643</u></u> |

Benefits Provided: The benefits medical, dental and vision only to those hired prior to June 30, 2017 and 22 years of service. Dependents are also eligible for the noted coverage. The District provides these benefits on a pay-as-you-go basis and the Governing Board is authorized to change such benefit terms.

Contributions: California Government Code specifies that the District's contribution requirements for covered employees are established and may be amended by the Governing Board. Retirees participating in the group insurance plans offered by the District are required to contribute 100% of the active premiums. In future years, contributions are assumed to increase at the same rate as premiums. The District's premium rates being charged to these retirees are lower than the expected cost for a retiree population under age 65. Thus, an implicit subsidy exists as a result of this difference between the actual cost and the true retiree cost.

Total OPEB Liability

The District's total OPEB liability was measured as of June 30, 2018, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation of June 30, 2017. Procedures were used to rollforward the OPEB liability from the valuation date to the measurement date.

NOTE 13 - JOINT POWERS AGREEMENTS

San Joaquin Delta Community College District participates in public entity risk pools joint power agreements (JPAs), with Protected Insurance Program for Schools and Community Colleges (PIPS) and Statewide Association of Community Colleges (SWACC). The relationship between San Joaquin Delta Community College District and the JPAs is such that the JPAs are not component units of San Joaquin Delta Community College District for financial reporting purposes. There have been no significant reductions in insurance coverage from coverage in the prior year.

The JPAs are governed by boards consisting of a representative from each member district. The boards control the operations of the JPAs, including the selection of management and approval of operating budgets, independent of any influence by the member district beyond their representation on the governing board. SWACC and PIPS provide workers' compensation and property and liability insurance for its members. San Joaquin Delta Community College District pays a premium commensurate with the level of coverage requested.

Member districts share surpluses and deficits proportionate to their participation in the JPAs. The JPAs are independently accountable for their fiscal matters and maintain their own accounting records. Budgets are not subject to any approval other than that of the governing board. The District continues to carry commercial insurance for all other risks of loss, including employee health and accident insurance. Settled claims resulting from these risks exceeded the commercial insurance coverage in one of the past three years.

Condensed financial information of the JPAs for the most recent year available is as follows:

NOTE TO SUPPLEMENTARY INFORMATION
June 30, 2019

NOTE 1 - PURPOSE OF SCHEDULES

A - Schedule of Expenditure of Federal Awards

The Schedule of Expenditure of Federal Awards includes the federal award activity of San Joaquin Delta Community College District, and is presented on the accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. The District has elected not to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance.

B - Schedule of State Financial Awards

The accompanying Schedule of State Financial Awards includes State grant activity of the District and is presented on the accrual basis of accounting. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements. The information in this schedule is presented to comply with reporting requirements of the California Community College Chancellor's Office.

C - Schedule of Workload Measures for State General Apportionment

Full-time equivalent students is a measurement of the number of students attending classes of the District. The purpose of attendance accounting from a fiscal standpoint is to provide the basis on which apportionments of State funds are made to community college districts. This schedule provides information regarding the attendance of students based on various methods of accumulating attendance data.

D - Reconciliation of Annual Financial and Budget Report (CCFS-311) with Audited Financial Statements

This schedule discloses any adjustments to fund balance as reported on the CCFS-311 to fund balance used in the audited financial statements.

E - Reconciliation of Governmental Funds to the Statement of Net Position

This schedule provides the information necessary to reconcile the fund balances to the audited financial statements.

F - Reconciliation of ECS 843632 (50 Percent Law Calculation)

This schedule provides the information necessary to reconcile the 50 Percent Law Calculation reported on the CCFS-311 to the audited data.

G - Proposition 55 Education Protection Account (EPA) Expenditure Report

This schedule provides information about the District's EPA proceeds and summarizes how the EPA proceeds were spent.

- Education Protection Account Funds

Management's Responsibility

Management is responsible for compliance with the requirements of state laws and regulations as listed above.

Auditor's Responsibility

Our responsibility is to express an opinion on San Joaquin Delta Community College District's compliance with state laws and regulations as listed above based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and the *California State Chancellor's Office's California Community College Contracted District Audit Manual* (Audit Manual). Those standards and the Audit Manual require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the compliance requirements referred to above that could have a material effect on San Joaquin Delta Community College District's compliance with the state laws and regulations listed above occurred. An audit includes examining, on a test basis, evidence about San Joaquin Delta Community College Districts compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

(Continued)

We believe that our audit provides a reasonable basis for our opinion on compliance with state laws and regulations. However, our audit does not provide legal determination of San Joaquin Delta Community College District's compliance with those requirements.

Opinion with State Laws and Regulations

In our opinion, San Joaquin Delta Community College District complied, in all material respects, with the state laws and regulations as listed above for the year ended June 30, 2019. Further, based on our examination, for items not tested, nothing came to our attention to indicate that San Joaquin Delta Community College District had not complied with the requirements that are applicable to the state laws and regulations.

Purpose of this Report

This report is intended solely to describe the scope of our testing of compliance and the results of that testing based on requirements of the *Contracted District Audit Manual*. Accordingly, this report is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN
AUDIT OF BASIC FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS

Board of Trustees
San Joaquin Delta Community College District
Stockton, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities, the discretely presented component unit and fiduciary activities of San Joaquin Delta Community College District as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise San Joaquin Delta Community College District's basic financial statements, and have issued our report thereon dated March 6, 2020. The financial statements of Delta College Foundation were not audited in accordance with *Government Auditing Standards*, and accordingly, this report does not include reporting on internal control over financial reporting or instances of reportable noncompliance associated with Delta College Foundation.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered San Joaquin Delta Community College District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of San Joaquin Delta Community College District's internal control. Accordingly, we do not express an opinion on the effectiveness of San Joaquin Delta Community College District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

(Continued)

Compliance and Other Matters

As part of obtaining reasonable assurance about whether San Joaquin Delta Community College District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE
FOR EACH MAJOR FEDERAL PROGRAM AND
REPORT ON INTERNAL CONTROL OVER COMPLIANCE

Board of Trustees
San Joaquin Delta Community College District
Stockton, California

Report on Compliance for Each Major Federal Program

We have audited San Joaquin Delta Community College District's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on the San Joaquin Delta Community College District's major federal program for the year ended June 30, 2019. San Joaquin Delta Community College District's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the Federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of San Joaquin Delta Community College District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about San Joaquin Delta Community College District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the major federal program. However, our audit does not provide a legal determination of San Joaquin Delta Community College District's compliance.

Opinion on Each Major Federal Program

In our opinion, San Joaquin Delta Community College District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on the major federal program for the year ended June 30, 2019.

(Continued)

Report on Internal Control Over Compliance

Management of San Joaquin Delta Community College District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered San Joaquin Delta Community College District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of San Joaquin Delta Community College District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
